Mrs. J. M. Mitchell Ministers to Lad, Thrown Off Car Against Posts, Until Physician Father

When men hesitated to approach little teen Englebart, who says he was thrown toom a sestbond Suburban car at King's sabissy Friday eventing. Mrs. J. M. Michbell of No. 2014 Fairmount avenue litted him from the ground unconscious and drawled by standars how to give him first and until a physician was called. The lad was thrown against an nor and a wooden post which stand at the corner and suffered a fracture of the wrest, largations of the face, a severe wrench of Mrs. Mitchell sped across the street to belt him. Several men who stood near insulated to go near the little fellow, believing that he had been killed and badly battgled by the impact with the posts. Hoctor W. F. Englehart was notified and carried his son to their home, a block distant. Three physicians were working on him last mark, though it is said his injuries are not likely to cause death. The boy declares that he boarded the car at Euclid avenue to sell papers. The conductor, W. G. Cavanaugh, he alleges, ordered him to got off. The car, according to young Englishart, passed Aubert avenue, the neat street west, at such high speed that he was afraid to jump. He temained on the platform, he says, until the car nettred King's highway, after asking the conductor to stop the car at that point. As the car approached King's highway, the boy says, Cavanaugh pushed him from the steps. him from the steps.

Mrs. Mitchell says that the car did not Mrs. Mitchell says that the car did not stop, though Cavinnauah and several men-passengers were standing on the rear plat-form and witnessed the accident. Englebart is II years old, and lives with his parents at No. 5005 Fairmount avenue.

Tells Engineers That Fast Construction Is of More Mement Than Type of Canal-Asks to Be Advised in Full.

Washington, Sept. 17.—President Roosevelt is urging in the strongest terms the necessity for a plan for the construction of the Panama Canal which may be accomplished in the shortest possible time. In his recent remarks to the Consulting Board of Engineers of the Istimian Canal Commission he said many things which are of the utmost importance.

These remarks have just been transcribed and transmitted to the board here and General Payls, its chalifman, has and General Pavis, its chairman, has been authorized to make them public. The President said: he President said;
What I am about to say must be cendered in the light of suggestion, not as rection. I have named you because in y judgment you are especially fitted to two as advisers in planning the greatest gineering work the world has yet seen, at 1 saves you to advise me not what and I expect you to advise me, not what you think I want to hear, but what you think I ought to hear.

THREE CONSIDERATIONS There are two or three considertions sich I trust you will keen before your minds in coming to a conclusion as to the proper type of usual.

Three of the prime considerations to be kept steadily in mind are: atmost practical speed of con-

struction.

"2. Practical certainty that the plan pro-posed will be feasible, that it can be car-ried out with the minimum risk.

"2. The quantity of work and the amount of work should be minimized so far as possible.

"Finally I are upon you the necessity of as great expedition in coming to a deof as great expedition in coming to a de-cision as it compatible with the roughness in considering the conditions."

No Money to Pay Running Expenses After This Month.

Topeka Kas. Sept 18—After the August and September bills of the State shall have been paid, there will be no money to pay running expenses of the departments until after the first of the year.

The State Auditor made an estimate today, under the provisions of the new depository law of the amount of maney which will be needed from the County Treasurers to pay the expenses of the State for the present month.

This estimate calls for all of the money the County Treasurers have on hand The law provides that the Treasurers shall. July 1 and January 1 of each year furnish the Auditor with a statement of the amounts of money they have subject to the draft of the State.

The aggregate amount is the only money the State can use during the intervals between the statements. penses After This Month.
